CLE SEMINAR -- Wednesday, September 25, 2019 (Washington, DC)

USE OF THIRD PARTY NEUTRAL TECHNIQUES IN THE CONTEXT OF NATURAL RESOURCE DAMAGE CASES AND OTHER APPLICATIONS

The Industry/Trustee Standing Committee of the Ad-Hoc Industry Natural Resource Management Group will convene this unique seminar in cooperation with the Federal Bar Association and the D.C. Bar. A distinguished multi-stakeholder faculty will guide participants through ways that third party neutral approaches are --- or could be --- used to settle NRD cases as well as be used in a variety of other environmental case/site contexts. Think mediation, arbitration, role reversal and more... The Federal Bar Association is working with us to secure CLE accreditation in a variety of states. **Send an email to us at info@NRDOnline.org to request full details and obtain the FBA registration link.**

NRD STATE OF THE PRACTICE MEETING -- Thursday, October 17, 2019 (Washington, DC)

HOW DO WE (FINALLY) MOVE ALL OUR COLLECTIVE "GOOD IDEAS" INTO CONCRETE ACTION AND ACHIEVE REAL ON THE GROUND RESULTS?

The second day of the Group's Annual NRD State of the Practice Meeting will be open to interested practitioners in private and public sectors in a variety of disciplines. The day's program will include a multi-generational panel aimed at identifying and discussing how to transition the collective knowledge and experience of seasoned NRDA practitioners to the next generation of NRDA practitioners. **Send an email to us at info@NRDOnline.org to request full details and obtain an invitation to register.**

The Ad-Hoc Industry Natural Resource Management Group was established in 1988. It consists of a core group of companies on a membership basis and a program of Affiliate law firms and consulting firms. Additional information can be found at www.nrdonline.org. The Standing Committee has served as a focal point and clearinghouse for communications between the industrial and trustee communities on NRD and related issues since 1999. Additional information can be found at www.NRDARPracticeExchange.com.
